Baja SAE

**Sponsorship
Packet**

Who Are We?

Husker Racing at the University of Nebraska-Lincoln is a Baja SAE (Society of Automotive Engineers) team that has been around for 30 years. We build an all-terrain vehicle that competes at one of three national competitions against teams from all over the world.

We strive to provide engineering students with hands-on experiences that develop both hard and soft skills, so the transition from university to the workforce is easier.

What Can You Do?

- Money
- Materials
 - Sheet metal
 - Aluminum and steel stock
 - Carbon fiber
 - Parts
- Services
 - Machining parts
- Equipment
 - machines
 - tools
 - PPE
- Tours of facilities
