# Husker Rusker Baja SAE

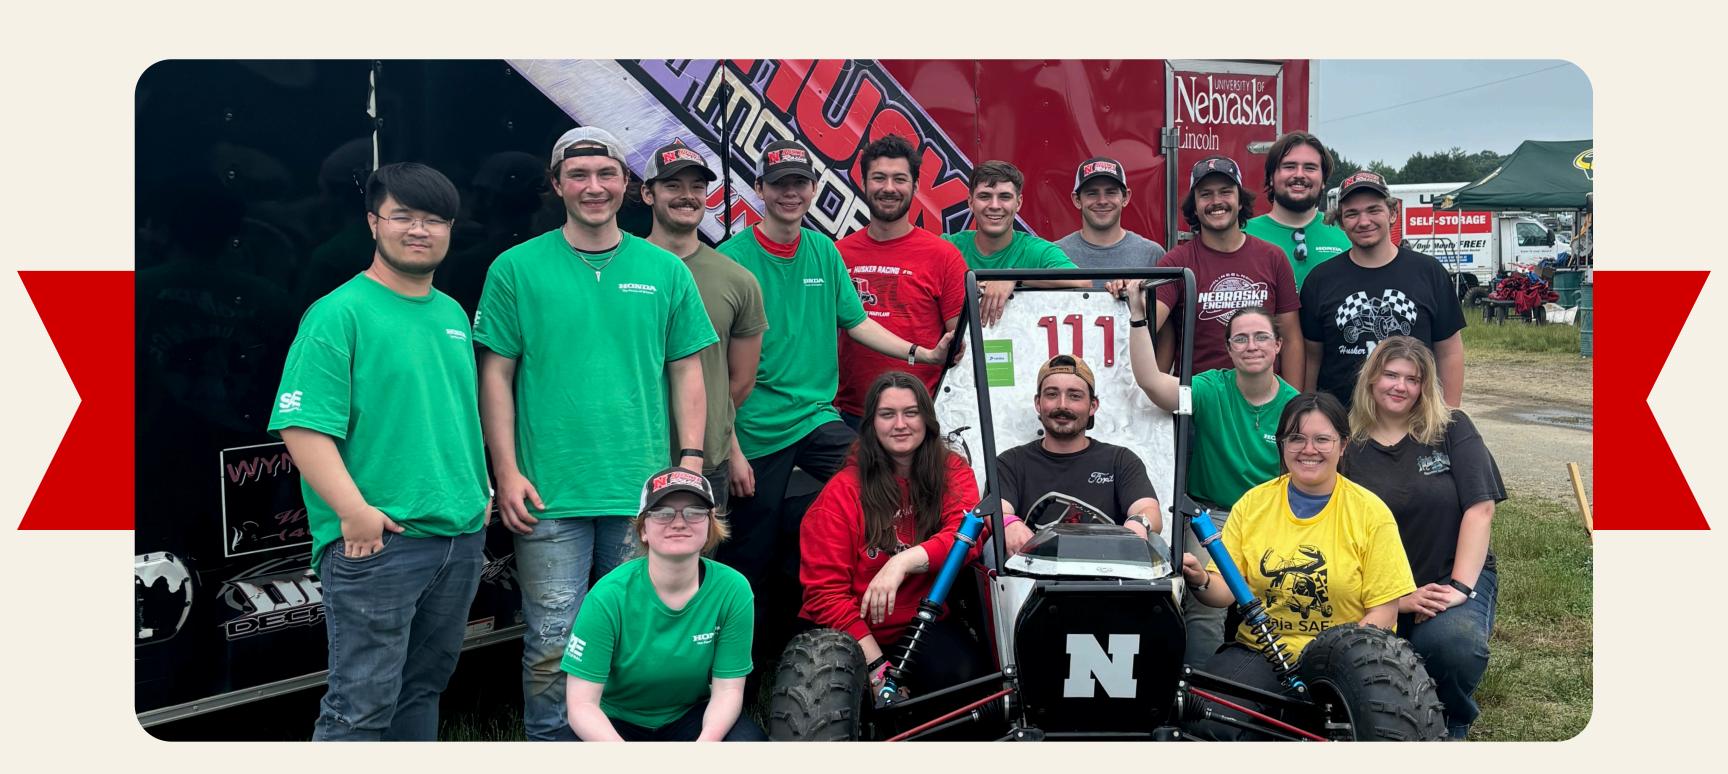

## Sponsorship Packet

#### Who Are We?

Husker Racing at the University of Nebraska-Lincoln is a Baja SAE (Society of Automotive Engineers) team that has been around for 30 years. We build an all-terrain vehicle that competes at one of three national competitions against teams from all over the world.

We strive to provide engineering students with hands-on experiences that develop both hard and soft skills, so the transition from university to the workforce is easier.

### What Gan You

#### 

- Money
- Materials
  - Sheet metal
  - Aluminum and steel stock
  - Carbon fiber
  - Parts
- Services
  - Machining parts
- Equipment
  - machines
